

CRYPTO GAMER

FUTURE COIN OF METAVERSE

DISCRIPTION

CryptoGamer is a Metaverse platform where content creators buy and sell games. The cipher used for payments on the CryptoGamer platform is the \$ CRG token. In addition, users can play and stream digital video games.

Crypto Meta Games are a wild new concept that's been gaining popularity recently. They're almost like another dimension where you can challenge your friends in Mario Kart while using the steering wheel as an input device and betting on who will win with \$CRG allocating funds proportionally according to how much each player bets! It sounds awesome right? Well let me tell you about my experience here at GameXplor. The crypto meta games is so immersive it feels just like being home again- but without any distractions or gimmicks messing everything up because there aren't even wires getting tangled underfoot.

CRYPTO GAMER

CryptoGamer's ambitions are as lofty and broad-based as they come. We have assembled a team of some of the most prestigious talents in gaming today, including Johns "Jhon" Faraday – Lead Designer at 343 Industries (Halo), Douglas Raymond—An animator who worked on Pixar movies such has "Toy Story 3" or "The Good Dinosaur". And Dave Field - Content Creator for Fortnight

Crypto Meta Games is on a mission to create the ultimate gaming experience. With Blockchain and VR technology, they'll connect you not just with other players but also in-game items that are transferable from one game into another - so it's possible for your skills at playing racing robot pilot or first person shooter Jackson Galaxy be used as fuel towards winning more battles against opponents all around planet Earth!

From tournament brackets made up entirely of AI personalities known collectively under "The Meta" (because why wouldn't there be?) these high stakes contests await those willing enough either risk money betting

ABOUT CRYPTO GAMER

Crypto Gamer is the latest token in the Binance Smart Chain network, bringing together the best of all platforms in one place.

The Crypto Gamer community is a universal acupoint for our teams, players, streamers, producers, NFT creators and many others.

The Crypto-Gamer token's goal is to build a gaming platform in the Metaverse. We wish to delight people on the Metaverse at the crypto gaming platform.

Its users will be able to share and sell the content they generate, such as videos, photos, and movies, as well as sell it as games and NFTs.

The CRYPTO GAMER coin is the crypto used to make payments on the \$CRG platform. Users will also be able to PLAY and stream digital video games and broadcasts.

Users of the crypto-gamer platform will be able to share material outside of the metaverse, on real-world social media platforms like Netflix, YouTube, and Twitch.
